- PHP
- SQL

CAREER OBJECTIVE

Proven Associate Front-end Web Developer with full stack developer certificate and 1+ years of experience. As a dedicated problem solver, I display an expert skill in Wordpress and supporting languages/libraries/frameworks that solve real-world problems through code. As an independent contractor, I have gained further hands-on experience in industry-standard development, which I'm looking to apply to a growing business. My goal is to establish an enduring relationship within a company and advance alongside its growth.

WORK EXPERIENCE

Sole Developer

[Church of Crowley](#)

📅 June 2023 - current

📍 San Antonio, TX

- Developed a comprehensive static website dedicated to a professional wrestling couple, offering all essential information about the featured talent.
- Implemented a dedicated merchandising page that seamlessly connects to an external website for merchandise sales. The next phase involves transforming page into a full functional e-commerce website.
- Utilized a plug-in to seamlessly integrate all social media links into the biography pages of featured talents on the website.
- Established a user-friendly contact page, facilitating direct communication via email for all inquiries.

Sole Developer

[Wrestleganza](#)

📅 November 2023 - January 2024

📍 San Antonio, TX

- Designed a landing page featuring the company logo, with a direct link to the company bio upon logo selection.
- Designed a dynamic multi-brand website tailored for a two-day professional wrestling event.
- Crafted complete brand and wrestler rosters, alongside a vendor page. Each brand logo is seamlessly linked to their primary social media platform for easy access and engagement.
- Collaborated with a graphic designer to seamlessly integrate a tailored background design into the website, aligning perfectly with the branding and theme of the event.

Sole Developer

[Heathenz Entertainment](#)

📅 August 2023 - September 2023

📍 San Antonio, TX

- Collaborated with a graphic designer to seamlessly integrate a tailored background design into the website, aligning perfectly with the branding and theme of the event.
- Integrated a video landing page, where clicking on the central logo directs users to the company biography.

- React
- Responsive Web Design
- Front-end Web Development

CERTIFICATIONS

- Wordpress Certificate - Udemy
- Full-stack Web Development - UTSA
- PHP Certificate - Udemy(in process)

- Developed a media page showcasing the top four matches listed on their website, along with direct links to their full YouTube channel and social media platforms.
- Initiated the roster page, established a merchandise page for upcoming products, and implemented a direct-to-email contact page(*compromised due to the owner's negligence*) for inquiries.

Sole Developer

[Portfolio](#)

📅 2023 - current 📍 San Antonio, TX

- Developed a comprehensive portfolio website using React.js.
- Implemented a data page that dynamically generates the top six projects listed on the website's project section.
- Linked an external resume and included a list of skills below for quick reference.
- Integrated a basic contact form alongside social media links for easy access.

Hair Artist, Educator, Owner, and Social Media Strategist

Hairchevere

📅 2009 - current 📍 San Antonio, TX

- As a hairstylist and business owner, my primary responsibility is to deliver exceptional service to my clients by fulfilling their hair-related needs and preferences.
- I've traveled across multiple states to share my personally developed techniques in hair fading, cutting, and styling with fellow stylists.
- I provide guidance on effective hair photography techniques, including setting up proper lighting for optimal results.
- I offer insights into how I've successfully expanded my social media presence within the realm of hair design. This growth has not only enabled me to teach hair techniques internationally in countries such as Canada, Ireland, the United Kingdom, and Russia but has also allowed me to connect with hairstylists worldwide.
